
Game Show

Have you always wanted to be a contestant on a game show but never had the chance? Well here is your chance! A hilarious way to enhance any event, seminar or meeting. This is how it works, you have one to three contestants at each podium, we use (mostly) easy questions, play a video, sound bite or show a photo and the first one to buzz in will have that podium microphone turn on and can answer, the others are locked out! For that true game show feeling, Game Show Mania is for you. A combination of game shows from the past and present including but not limited to "Deals" "Wheels" and "Stunts". The basics are, two to five podiums with attached microphones, audio and chasing lights, add the computer controlled program to show the questions, photos or videos on our own 55 inch monitor (or plug into the venues' screen) and of course lock-out buttons which are on the top of the podiums or optional hand held devices. Intelligent lighting is also available, as well as décor and staging. Other programs are Jeopardy style, Feud, or the new Star Power.

Customize the questions to fit the event.
Customize the facade to reflect your needs.

Three versions are below, the basic four podium game show, three podium and five podium black. Not shown is the two podium (head to head) or your own customized facade
